Utopian – Data Privacy Compliance by Default

Problem

Data Privacy regulations define *Data Ownership*, with no technology to manage *Data Ownership* in company repositories.

Solution – *set, activate, comply!*

Data Ownership infrastructure which provides *Privacy Compliance by Default*

- No code changes required
- Data stays in perimeter
- Embedded strong data security

Our uniqueness

- Compliance by default solution
- Data Ownership technology
- Fully automated at scale
- Easy to manage
- Minimizes data attack surface

Value

Privacy policy & DPA enforcement	Consent lifecycle tracking	Embedded privacy portal
Automated DSAR handling	Breach impact minimization	Audit assesment

Competitive Landscape

Supported Platforms

All public and private cloud providers, on-premise and hybrid environments
VMs, Docker, Kubernetes
Relational Databases – PostgreSQL, MySQL and more

Pricing

SMALL	MEDIUM	LARGE
<100K Data Subjects $9,900 per year	<1M Data Subjects $19,900 per year	>1M Data Subjects $29,900 per year

Team

Seasoned entrepreneurs with rich background in databases, cyber security, virtualization, storage and networks

CEO
Ophir Bear
